PREFERRED ACCESS FORMULARY PA LIST

The attached list of drugs requires a Prior Authorization (PA) on your formulary. A Prior Authorization is the process of reviewing your prescription to determine that it is medically necessary and that you are receiving the correct course of treatment. If a drug requires a PA, it will not be covered until the PA has been approved.

This PA list is effective as of January 1, 2027, and is subject to periodic updates as new medications and prescribing information become available. Please note that this guide does not provide a comprehensive list of all medications that require a Prior Authorization. Variations in coverage may occur based on individual employer benefit plans. For information regarding benefit coverage or dispensing restrictions, please refer to your benefit plan documents or contact Member Services.

If a prescribed medication is not listed in this guide, members are encouraged to contact Member Services or consult with a network pharmacy to determine coverage levels. Prior Authorization and administrative support are available through US-Rx Care Member Services at 877-200-5533.

US-Rx Care

A

DRUG NAME	STRENGTH	FORM
ABILIFY MAINTENA	300MG, 400MG	Prefilled Syringe
ACCUTREND GLUCOSE CONTROL SOLN		Liquid
