

IMPORTANT NOTICE RELATED TO PHARMACY BENEFIT COVERAGE FOR WEIGHT LOSS MEDICATIONS

Guthrie Clinic is pleased to support and contribute to the cost of GLP-1s medications for weight loss on behalf of plan members that meet plan criteria for coverage.

With coverage comes important conditions and responsibilities:

1. Coverage of GLP-1s for weight loss requires prior authorization approval to ensure plan guidelines for coverage are met.
2. You must schedule an appointment to see a clinician in the Weight Loss Clinic before GLP-1s therapy can be considered.
3. If approved through prior authorization, you must fill your prescription at a Guthrie in-house pharmacy. Up to 30-day supply per fill are covered by the plan.
4. Ongoing refills for approved GLP-1s are based on plan coverage guidelines.
5. Effective January 1, 2026, a copay of \$250 per fill will apply. However, drug manufacturers provide copay assistance to offset out of pocket cost for members.
6. Be sure to speak to the dispensing pharmacist to ensure that the available copay assistance is applied to each prescription filled.

For questions related to the weight loss benefit or your prescriptions, please consult with the Weight Loss Clinic. If the pharmacy encounters any problems processing your prescription claim, they can contact Member Services at **877-200-5533**.
