PBM Regulations by State

National and State Level Regulatory Requirements Specific to Pharmacy Benefit Management

State: Idaho
Last Updated: 11/09/2026

Applicable Rule(s)

Idaho Code § 41-349, enacted under the authority of the Idaho Department of Insurance, governs the registration and oversight of Pharmacy Benefit Managers operating in the State of Idaho. The statute highlights that a person or business entity may not perform acts, act, or do business as a PBM administering prescription benefits to Idahoans without maintaining an active registration issued by the Idaho Department of Insurance. To satisfy full state requirements, the entity must also hold an active Idaho Third Party Administrator (TPA) license or registration pursuant to Idaho Code Title 41, Chapter 9.

Compliance Statement

The Pharmacy Benefit Manager maintains the required Idaho Pharmacy Benefit Manager registration pursuant to Idaho Code § 41-349 alongside maintaining its structural Idaho Home State or Non-Resident TPA licensure. The organization ensures ongoing regulatory compliance by maintaining administrative protocols and submitting all comprehensive operational and plan-servicing reports as prescribed by the Idaho Department of Insurance
