PBM Regulations by State

National and State Level Regulatory Requirements Specific to Pharmacy Benefit Management

State: Pennsylvania

Last Updated: 09/11/2026

Applicable Rule(s)

40 P.S. § 4511 (enacted via Act 77 of 2024 / House Bill 1993, known as the Pharmacy Benefit Reform Act) establishes the registration and regulatory oversight requirements for Pharmacy Benefit Managers operating in the Commonwealth of Pennsylvania. Under 40 P.S. § 4511, a corporation, business, or other entity may not act as a PBM or provide pharmacy benefit management services in Pennsylvania without first obtaining a registration from the Pennsylvania Insurance Department (PID). The Pennsylvania Insurance Department confirms that PBMs must maintain active registration to operate within the state. The Department's regulatory guidelines mention that this registration must be actively renewed and maintained in accordance with oversight standards established under the 2024 omnibus amendments.

Compliance Statement

The Pharmacy Benefit Manager maintains the required Pennsylvania Pharmacy Benefit Manager registration pursuant to 40 P.S. § 4511 and the administrative requirements of the Pennsylvania Insurance Department. The organization has obtained and actively maintains its registration credentials prior to conducting pharmacy benefit management or administrative services within the Commonwealth. The Pharmacy Benefit Manager maintains verifiable compliance documentation supporting its current Pennsylvania registration and actively monitors evolving state regulatory updates under the Pharmacy Benefit Reform Act.
