

CopayAssist For High-Cost Medications

The US-Rx Care CopayAssist program utilizes funding available through drug manufacturers to cover a significant amount of the cost for over 360 high-cost and specialty medications.

In the past, pharmacies may have made copay assistance available to some plan participants, but the US-Rx Care CopayAssist program ensures all eligible members can take advantage of copay subsidies through drug manufacturers when available.

If you're prescribed a medication eligible for funding through the CopayAssist program, you will be contacted by a US-Rx Care CopayAssist representative to educate you on the details of the program and to get you enrolled. There are no income requirements to qualify for this program.

If you are taking a medication eligible for the CopayAssist program and choose not to participate, your medication out-of-pocket cost under the plan could increase by as much as 100% of the medication cost and will not apply toward the accumulators, either or both the annual deductible and/or the out-of-pocket maximum, if applicable.

Your communications with US-Rx Care will always be strictly confidential. If you receive a voice message from a CopayAssist representative, it is important you return the call as soon as possible to register in the program.

US-Rx Care CopayAssist representatives can be reached at **1-800-490-3550**.
