

Synovus Open Access PPO Plan Participants

OVER-THE-COUNTER PRODUCTS

Did you know, some common medications are available over-the-counter (OTC)? Many of these medications are available to you through your prescription benefit at a \$0 copay. Synovus will fill covered over-the-counter medicines with a prescription.

WHY CHOOSE OVER-THE-COUNTER?

OTC medications are used to relieve minor ailments, including headaches, colds and fever. All OTC medications are regulated by FDA for safety, quality and effectiveness. It's important to follow your doctor's instructions when taking OTC medications to avoid interactions with any of your other medications.

✓ **VALUE** ✓ **SAFETY** ✓ **EFFECTIVENESS**

Using Your Over the Counter (OTC) Benefit is Easy

- ✓ Ask your doctor for prescription for a covered OTC medication.
- ✓ Bring the prescription to an in-network pharmacy and fill it like a prescription medication.
- ✓ Read the label for all information about safe usage.
- ✓ Consult the pharmacist about any concerns before taking the medication.

Our customer service representatives can help to determine your coverage and copayment for OTC products. To speak with a representative, call 800.323.0960. Ask your doctor if there are OTC medications to treat your condition.
