

# \$0 COPAY

## SPECIALTY MEDICATIONS

### ScriptSourcing - Prescription Advocate

**ScriptSourcing** is a supplement to your prescription drug benefit. They can provide many specialty medications for a **\$0 copay**. These specialty medications must be determined medically necessary and require prior authorization through our pharmacy benefit administrator, **US-Rx Care**.

A **member advocate** from ScriptSourcing will contact you if you take a medicine that meets the initial qualifications. They will verify that you meet the requirements to enroll and will assist you with the application and enrollment process.

**Once approved**, you will receive your medication from a manufacturer-designated pharmacy at **no cost**.

Please note that your **ScriptSourcing advocate** will ask about your household income to search through various programs on your behalf.

You must provide the requested information to your **ScriptSourcing advocate**.

Eligibility is based on household size and income, so information requested may include:

**Driver's License**

**Paystubs**

**Proof of Address**

**Tax Returns**

After you contact your advocate at **ScriptSourcing**, an override will be placed in the system that allows you to receive your medication from a **manufacturer designated pharmacy**.

Your **ScriptSourcing** advocate will send you paperwork to complete, and you **MUST** return it by the specified deadline.

Your **ScriptSourcing advocate** will help you determine your eligibility and transition your medication from your current pharmacy to the new MAP pharmacy for **\$0!**

Call **ScriptSourcing** at 410-902-8811

or search for your med and schedule a call online at <https://scriptsourcing.com/med-finder/>
