Member Services

The healthcare system can be confusing, but you don't have to navigate it alone. Our Member Services team is here to help answer your questions and address any concerns. For quick assistance, call **877-200-5533** to speak with a representative. Our team is available to help 8 a.m. – 10 p.m. CT and is ready to help.

Prior Authorization

Some medications require prior authorization to help determine if they meet coverage requirements and will be covered by your health plan. As part of the review, US-Rx Care may reach out to your provider for medical information needed to make a coverage decision. These requirements are applicable to all enrolled plan members. If you have any questions regarding the prior authorization process, reach out to a US-Rx Care Members Services representative.

Copay Assistance

US-Rx Care's CopayAssist uses funding to reduce the cost you pay for certain drugs. If your prescription drug is eligible, US-Rx Care will contact you to help you enroll and to answer any questions that you have. If you choose not to participate in the program, your medication costs will be much higher. Always be sure to keep your phone number current in Workday so that US-Rx Care can reach out when needed.
